Description

In the historic center of Tarquinia, in Via Garibaldi, a 55 m2 warehouse is available, located on the ground floor of a period building.

The street, closed to traffic and completely pedestrian, hosts the main commercial activities of the city, guaranteeing an excellent logistical position.

The access to the warehouse is through a condominium courtyard, directly from a door overlooking the courtyard. The property consists of a first room on the ground floor, where there is a medieval butto, a historical element. Through some steps you access the second room, located in the basement.

The property features typical construction features of the area, such as macco stone walls and brick vaults, which enhance its historical identity. In an area where warehouses are rare, this solution represents a concrete opportunity especially for those who have a business on Via Garibaldi and need a convenient and easily accessible storage space.
