Description

Approximately 1.2 km from the town of San Vito dei Normanni, we offer for sale a plot of land measuring approximately 7,968 square meters with a building F/3 of approximately 48 square meters, along with a plot of land measuring approximately 8,567 square meters with a building F/2 of approximately 144 square meters, located in a very quiet setting and a short distance from the town. The sale is envisaged exclusively as a block, including both plots of land and the related buildings, which are in need of renovation and belong to different owners. The convenient location, immersed in the tranquility of the Apulian countryside yet close to the town, makes this an attractive option for those looking to invest in a large property and consider a property restoration and redevelopment project. To support the proposal, we have included an illustrative rendering that allows you to visualize a potential redevelopment and enhancement concept for the entire property. The interventions will need to be verified in relation to the buildings' urban planning and construction compliance and to current urban planning and landscape regulations.
