Description

160 sq m on a single level in the heart of Cavalese: space, comfort and a rare layout.

There are apartments that are described in square meters.
And then there are houses that you perceive as soon as you enter.

In the heart of Cavalese, on the first floor of a building renovated in 2011 and served by an elevator, we offer for sale a fully renovated and furnished apartment of approximately 160 square meters: a spacious, bright, and move-in ready solution.

The home is spread entirely over a single level and impresses with its generous spaces and functional, well-organized interior layout. The entrance leads to a spacious living area, consisting of a spacious living room and a separate eat-in kitchen with access to the balcony.

The sleeping area hosts three bedrooms, two bathrooms, a walk-in closet and convenient utility spaces, including a practical closet.

The three-sided exposure provides natural light throughout the day and makes the rooms airy, pleasant, and liveable in all seasons.

An important added value is the basement, which features a large double garage, a cellar, and an additional storage room: valuable spaces, especially in a location like Cavalese, where convenience and functionality truly make the difference.

The heating, with independent management and connection to the district heating system, ensures comfort and efficiency.

Thanks to its size, internal layout, and clearly separated spaces, the property also offers interesting possibilities for customization and reorganization, even for those wishing to explore a more flexible solution in the future, subject to technical and urban planning assessments.

Available upon deed, this apartment is ideal for those seeking a prestigious home in the center of Cavalese: spacious, comfortable, ready to move in, and capable of adapting to a variety of needs, from a primary residence to a year-round mountain retreat.
