Description

In an elegant residential setting, we offer for sale a newly built semi-detached villa, designed to combine contemporary design, living comfort, and energy efficiency.

The home is spread over two levels. The ground floor features a large, bright living area with an open-plan kitchen, directly connected to the porch and private garden, ideal for enjoying the outdoors in any season. A bathroom and laundry room complete the floor.

Upstairs is the sleeping area, consisting of three bedrooms, a bathroom with window, and a comfortable loggia.

The property also has a garage and covered parking space.

The property will be constructed with quality materials and state-of-the-art technologies, including thermal insulation, high-performance PVC windows and doors, a 6 kW photovoltaic system dedicated to each unit, an air-to-water heat pump, underfloor heating, and provision for air conditioning. There is also the option of installing underfloor cooling with a centralized dehumidifier, and customizing the floors and walls with finishes as per specifications.

An ideal solution for those seeking a modern, independent, efficient home built to high quality standards, with spacious interiors and exteriors designed for the well-being of the whole family.
